This series of books have been written over a period of years. They were designed initially as course notes for our trainers, teachers and students for use on our own courses and have since been developed into these books.

I want to take this opportunity to thank the people who helped me and put up with me during the course of the writing of this series.

To my Mother, who started it all in 1981 by buying me my first computer and who since then has become a computer expert herself - Thank you.

To Maureen, who puts up with me, helped in a lot of the technical areas and is also a computer expert - Thank you.

Thanks to the proof readers who checked and rechecked the series - Agnes Bradley, Ciara McDonnell, Lorna McGuigan and Maureen O'Neill.

DeBoyz, my family and friends...
